

Gonzalo Manuel Veron

Misiones, Argentina · [linkedin.com/in/pygove](https://www.linkedin.com/in/pygove) · [+54 3755 669671](tel:+543755669671) · gonzalo.pygove@gmail.com · [Portfolio](#)

+1 year of practical experience in data analysis, supported by the completion of an intensive scholarship program provided by IBM and Guayerd. Skilled in effective communication, demonstrated through collaboration with diverse teams from various regions and nationalities in synchronous and asynchronous environments. I possess an analytical, entrepreneurial, and results-oriented mindset, strengthened by projects requiring autonomy and self-directed learning in innovative technological tools. Highly committed to professional excellence and continuous improvement.

PROFESSIONAL EXPERIENCE

IBM and Guayerd

Data Analyst

Remote

August 2024–November 2024

- Analyzed key performance indicators (KPIs) for the NGO Potencial Solidario, supporting strategic decisions with relevant metrics.
- Cleaned and transformed supplier, donor, and transaction data, ensuring quality and consistency using Google Sheets and Power BI.
- Designed an integrated database to optimize the analysis and relationships of key data.
- Created an interactive report in Looker Studio, including KPIs and clear visualizations to facilitate decision-making.

National University of Misiones

Python Developer - Researcher

Misiones, Argentina

July 2019–December 2023

- Developed a Python program to automate calculations of stresses, strains, and displacements in masonry subjected to compression.
- Conducted self-directed research on the Finite Element Method to accurately interpret engineering processes involved.
- Coordinated meetings with the lead civil engineer and translated technical requirements into Python-based solutions.
- Prepared presentations for publication in journals and participation in specialized events.

EDUCATION

IBM in collaboration with Guayerd

Data Analytics - [Certification](#)

Online

November 2024

National University of Misiones

Computer Engineering

Misiones, Argentina

Currently Enrolled

ADDITIONAL SKILLS

- **Certifications:** Training in [SQL \(MySQL\)](#), [Power BI](#), [DAX](#), [Power Query](#), [Looker Studio](#), [Advanced Excel/Google Sheets](#), Artificial Intelligence, [Business Intelligence \(BI\)](#), [Data Mining](#), Tableau, Big Data, [Data Wrangling](#), Azure, DBT, UML, [Agile Methodologies](#), [SCRUM](#), Teamwork, Communication, and Critical Thinking.
- **Academic Background:** Knowledge in Databases (MariaDB), Python, OOP, Machine Learning, Deep Learning, TensorFlow, APIs, Git, Keras, AI, Probability and Statistics, Advanced Calculus, Software Engineering.
- **Languages:** Native Spanish speaker, Intermediate English.
